BIOL - Wax Oil

Food-grade wood wax oil for the care and protection of wooden surfaces

Product overview: BIOL is a wood wax oil made from food-grade raw materials. It protects, nourishes, and enhances wood while preserving the natural appearance and feel of the surface. The product is odorless and UV-stable.

Description

BIOL protects, nourishes, and refines a wide range of wooden items, including kitchen utensils, sculptures, carvings, wooden jewelry, turned wood products, musical instruments, handles, and worktops.

Composition

- Pharmaceutical-grade mineral oils
- Food-grade waxes

Mode of Action

- The oil penetrates into the wood pores.
- Provides antibacterial and antifungal protection.
- The wax strengthens the wood from within and enhances the natural grain.
- Impregnates the wood surface and forms a thin, transparent, breathable protective film.

Application

- Apply BIOL thinly with a lint-free cotton cloth.
- Rub evenly into the wood surface.
- Allow to absorb for 1-2 hours.
- The surface may then be lightly polished to obtain a silk gloss finish.

Key Properties

Appearance	Clear wood wax oil
Odor	Odorless
UV stability	UV stable
Recommended substrates	Wooden utensils, decorative wood items, instruments, handles, worktops
Consumption	Approx.7-10m^2/ltr; depends on wood absorption properties
